06 For teachers, by teachers

Inspired by you.

An optimal learning environment requires the right tools that are developed with an awareness of the **digitalization process in education**, as well as all of the challenges that come with it. With **50+ years of experience in education**, i3-Technologies knows exactly what to offer. Our solutions are being developed and **co-created with teachers** to assure that we can offer a solution to meet their needs and tackle their challenges.

At i3-Technologies, our interactive solutions are always inspired by and **created for you**.

In this brochure, we will illustrate how i3-Technologies can help you navigate your **digital transformation** and **enhance** the education environments for students and teachers alike.

Helping teachers meet their goals.

With over **50 years** of experience in education and over **10 years** of experience in **education technology**, we know how to navigate today's challenges in education. We offer a **broad range of products** that are for the benefit of both the teacher and the student. Our solutions form an important part of the **digital education ecosystem**, which allows you to design your inspiring and interactive learning environment.

We are your partner for **inclusive digital learning** and innovation and education. Keeping your everyday environment in mind, we are able to create solutions that **meet your goals, curriculum, student needs** and **teaching style**. We focus on not just the use of technology, but the importance of the correct use of technology, because it makes a world of difference for students and teachers. All of our solutions are simple to use and **easy to integrate** into the existing infrastructure of your school.

Education experts
We have 50 years of experience in education.

Teacher-centric
Our solutions are developed for and co-created with the help of teachers.

Global company
i3-Technologies operates worldwide through a dedicated channel network.

Integrated solutions
We provide solutions for every situation, from hardware to software.

Trainings
Our team is there to help you in every step of the way with trainings and guidance.

What does the future of education look like?

The advancement and **adoption of technology** is moving faster than ever and with this in mind, it's important to successfully integrate technology into learning environments. i3-Technologies **doesn't change the way you teach**, rather assists and **enhances the learning experience** for both teachers and students. Our digital solutions make learning **easily accessible, engaging, flexible** and more **effective**.

In many studies, including our own case studies, schools have seen an **increase in learning outcomes** and **results**, engagement and enthusiasm in the classroom with the use of interactive touch displays or boards as well as our software solutions designed specifically for the classroom.

Incorporating Edtech into your classroom can bring **benefits** to your students, colleagues and school district. Using our **digital education ecosystem**, you can **customize the teaching solution** that best meets the needs of your classroom and its **digital transformation**.

Active and engaging lessons

Improve learning outcomes

Easy to use & integrate

Bring more inclusivity

Enhance collaboration

Our Digital Education Ecosystem

No school or classroom is the same, which is why our solutions allow you to create your own ecosystem of digital products that neatly covers your needs. With the **i3TOUCH** at the center of the ecosystem, you can integrate our education tools in ways which are **unique, efficient** and **effective** for your learning environments

Digital Classroom¹

There are many different ways to integrate interactive solutions into your classroom, and in the Digital Classroom we recommend **our complete solution**. The complete solution includes both software and hardware that will help you take your lessons to the next level, keeping your students **safe, engaged and connected**.

Captivate your students with eye-catching learning materials and **integrate your lessons** with teaching platforms such as i3LEARNHUB, simple and easy to use, right out of the box.

● INTERACTIVE EXERCISES

i3LEARNHUB

Interactive teaching studio.

All of the tools you need to make teaching **easy, successful** and **interactive** are at your fingertips, literally. Using i3LEARNHUB there are **no app installations required**. Simply have to log in from your IFF or computer and you can start teaching in three clicks.

i3LEARNHUB allows you to **stream classes online** and **collaborate** on the same board, all in the same application. Online teaching and distance learning is a breeze. Using our integration with **Google Classroom**, you can easily take your lessons from face-to-face to online, or go **hybrid**. Easily share your lessons and exercises in i3LEARNHUB with the students linked to your Google Classroom.

Hybrid Classroom²

The hybrid classroom combines in-classroom teaching with online learning while still allowing students to **participate in real-time** and give or receive immediate feedback.

With an interactive touch display, whether the students are in the classroom or learning online, everyone will have access to the tools they need to **stay engaged** and to **be more productive**.

ENDLESS COMPATIBILITY

OMNIDIRECTIONAL MICROPHONE

i3CAMERA

Hi, it's us.

The i3CAMERA Pro instantly brings collaboration and communication abilities to your interactive display, taking online or hybrid lessons to the next level. With a **wide-angle lens** up to 120°, the whole class will be in the picture. At the same time, it supports **face recognition** to adapt the focus and make everyone more visible.

With the **built-in microphone** array, the camera will pick up the sound clearly from a distance up to 12 meters. Whether it's a close-quarter room or a large open classroom, the most important subjects are **always seen and heard**.

Versatile Classroom³

The flexible classroom allows the teacher and students to incorporate movement into their learning activities. Rather than being sat at desks for the whole day, the flexible classroom allows the teacher to adapt the room to the lesson or activity, creating a more **hands-on environment** and **increasing engagement** and collaboration amongst students.

For the students in the younger grades and kindergarten it's not always easy to sit still at their desk and work in their workbook. A flexible classroom gives them space to move while they're learning and it helps them **focus much better**.

i3SIXTY

The digital flipchart.

The i3SIXTY is a mobile and interactive digital flipchart that can turn any classroom into a **modern, collaborative workspace**. With the i3SIXTY you can toggle between landscape and portrait mode to optimally accommodate different lessons and learning materials, and create a **superior learning experience** no matter where your lesson is being held.

You can easily jot down ideas on the whiteboarding application like you would on a traditional flipchart, but retain the possibility to continue working on additional pages. Easily link your devices to the i3SIXTY without fuss or cables by simply **sharing the screen from your laptop or mobile device** on the most flexible digital solution.

DIGITAL SIGNAGE

i3CAIR

Take care of your air.

i3CAIR is an indoor air quality sensor which improves **wellbeing, health & safety** in classrooms environments through ambient monitoring and data analytics. The i3CAIR measures **temperature, humidity, carbon dioxide** and particulate matter levels in your classroom and sends alerts whenever the ambient conditions need to be improved.

Not only is monitoring your indoor air quality crucial to **prevent the spread of viruses** or airborne diseases, but it also effects **energy** and **productivity** levels of students.
