

euroscreen®

Linea

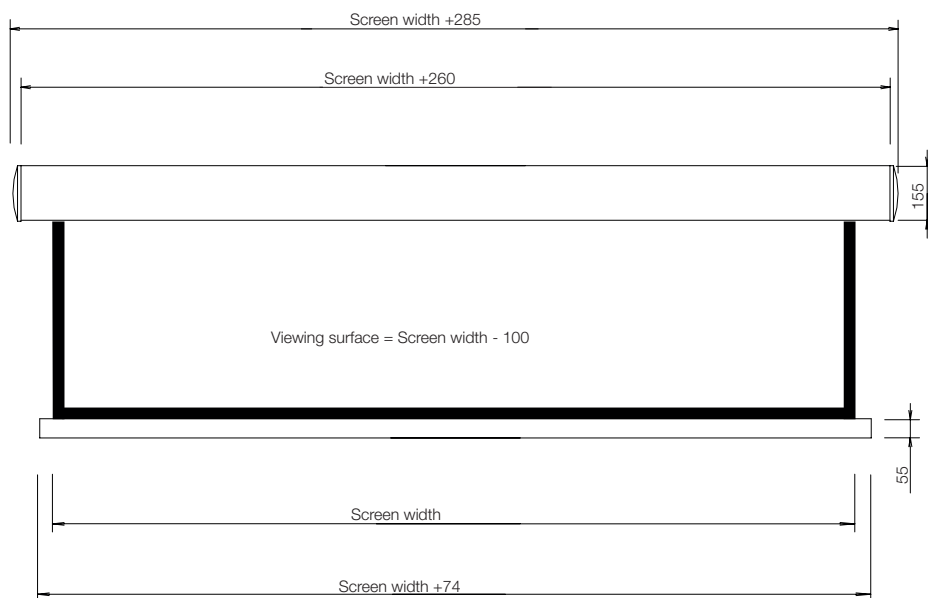

The **Linea** model has a uniquely designed case with a classic yet contemporary shape. The gently rounded aluminium case has no exposed mounting fixtures or fasteners, and all attachment points are completely invisible. The case is finished in white and the heavy weight bottom dowel retracts completely inside the case when the screen is not in use.

Linea Tab Tension

This model features all of the benefits mentioned above, and an additional selection of tensioned screen surfaces. The tensioning function makes it possible to adjust the flatness of the surface and therefore provide a perfectly flat viewing surface for years to come.
